AUSTRALIAN GROWING SOLUTIONS

Compost Based Products

Industry Landscape Mix

An all round lightweight landscape mix suited to broad applications and customised for use with blower trucks. pH balanced with good water holding properties.

Rooftop / Planter Box Mix

A lightweight mix with broad nutrition for rooftop gardens & planter boxes, we've included GreenJacket CRF 8-9 mth Low P to make this suitable for natives as well as many general varieties. pH balanced.

Commercial Grade Compost

Pine bark based compost sourced entirely from the timber/forestry industry. Meticulously composted in accordance with AS4454 to eliminate pathogens & weeds. Available in NASAA Certified Organic also.

Premium Custom Potting Mix

Blended combination of coarse & fine grade composted bark and GrowFibre provides a high performing mix with good drainage & water holding capacity. Available in standard General Purpose or Native/Low P blends and can be customised to your specific requirements.

Veggie Garden/Wicking Mix

Incorporating compost, coir, GrowFibre and a full nutritional profile that draws & retains moisture through the mix to create an ideal environment for strong and vigorous growth of vegetables. Tested with wicking cubes/pods.

Fertiliser & Wetting Agent

GreenJacket^{AGS}

Controlled Release Fertiliser

Controlled release Fertiliser (CRF) with advanced polymer coating. Available in a range of release rates from 2-3mth through to 12-14mth. Native/Low P also.

TopdressPlus^{AGS}

Balanced Nutrition Plus Wetting Agent

Combination of slow release fertilisers, SaturAid wetting agent, buffering minerals and trace elements to rejuvenate plants to promote growth & colour.

TripleAid^{AGS}

Three Way Plant Starter

Combines water storing crystals with premium fertilisers and SaturAid wetting agent to give plants, trees, vines and turf the best chance of thriving.

SaturAid^{AGS}

Wetting Agent

Available in granular & liquid form, SaturAid improves the penetration of water throughout the soil or growing media. SaturAid is non-toxic and widely tolerated.
