

Plugger

Cell Tray Media

- ✔ Suited to cell tray systems
- ✔ Available with or without fertiliser
- ✔ Options for different crops and trays
- ✔ Pre-formulated to suit seed, cuttings and tissue culture

The modern nursery is looking for solutions that provide the grower with a greater level of operational efficiency. Plugger Cell Tray Media from AGS is a premium range of growing media products specially formulated for use in cell and community trays.

Plugger comes in multiple different formulations, containing a combination of composted pine bark, GrowFibre, peat moss and mineral additives. Whatever the crop, there is a Plugger product to suit. Plugger is available in 25 Lt bags, one cubic metre bulka bags or in bulk supply.

Setting the
Standards

EcoHort
Certified

Plugger has been used by vegetable growers and professional propagators for over twenty years. AGS continue to refine and improve the Plugger range to allow commercial horticulturalists to produce premium quality crops.

Propagation Mixes

A premium blend of fine-grade compost & GrowFibre, the Plugger Propagation range is nutritionally designed to suit a broad range of applications while balancing pH during the propagation process. Includes SaturAid granulated wetting agent.

Plugger Propagation Mix No Mini CRF <small>(Replaces previous Plugger 222, 444, 666*)</small>	The absence of controlled release fertiliser provides the grower flexibility to add their own nutrition program.	Available in: 25L bags (84 bags per pallet) 1m3 Bulk bags (4m3 min order) Bulk Tipper load (4m3 min order)
Plugger Propagation Mix + Mini CRF <small>(Replaces previous Plugger 333*)</small>	With Green Jacket Mini 2-3 mth CRF (NPK 18 - 2.6 - 9.9) incorporated, this mix has everything required for strong early growth for general varieties.	Available in: 25L bags (84 bags per pallet) 1m3 Bulk bags (4m3 min order) Bulk Tipper load (4m3 min order)
Plugger Propagation Mix + Low P CRF <small>(Replaces previous Plugger 555*)</small>	Perfect for Australian Natives and varieties that are sensitive to phosphorus and/or ammonium or that require a lower rate of fertiliser. This mix has Osmocote Pro Low P 8-9mth CRF (16-1.3-13.3) incorporated.	Available in: 25L bags (84 bags per pallet) 1m3 Bulk bags (4m3 min order) Bulk Tipper load (4m3 min order)

Seed Raising & Cuttings

Specialty mixes to support the delicate process of seed raising and root development on cuttings.

Plugger Seed Raising Mix <small>(Replaces previous Plugger 111*)</small>	A premium blend of fine-grade compost, GrowFibre and sand ideal for use in cell and community trays.	Available in: 25L bags (84 bags per pallet) 1m3 Bulk bags (4m3 min order) Bulk Tipper load (4m3 min order)
Plugger Cutting Mix <small>(Replaces previous Plugger 777*)</small>	A lightweight Peat, Perlite, fine grade GrowFibre & compost blend for striking cuttings in cells or community trays.	Available in: 25L bags (84 bags per pallet) 1m3 Bulk bags (4m3 min order) Bulk Tipper load (4m3 min order)
